I have a port, it looks like a little bump, it is very special and very important.

我有一条导管,它像一粒小肿块,非常特别也十分重要。

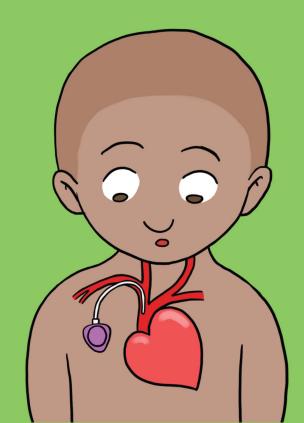

Saya dipasang "chemoport", ia serupa benjolan, ianya sangat istimewa dan sangat penting.

My Port is under my skin, it has a tube that goes to where my blood is.

我的导管被植入皮肤下层 一条管子埋在血液所在的地方。

Chemoport saya terletak di bawah kulit, ia mempunyai satu saluran ke dalam darah saya.

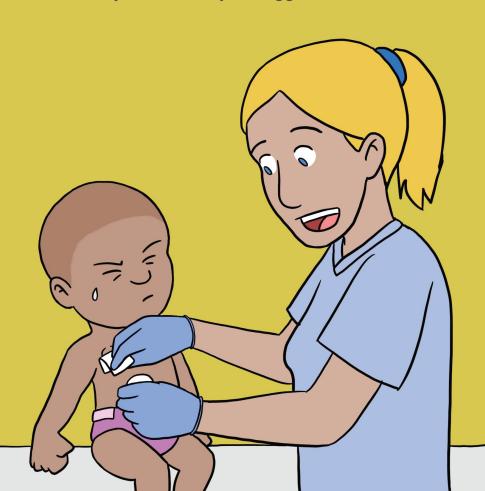

I don't like it when the sticky has to come off to use my Port.

The nurse says I am very brave.

我不喜欢每当要使用导管时, 胶布被撕下的感觉。护士称赞我很勇敢。

Saya tidak suka semasa plaster ditanggalkan untuk menggunakan chemoport. Jururawat memuji bahawa saya sungguh berani.

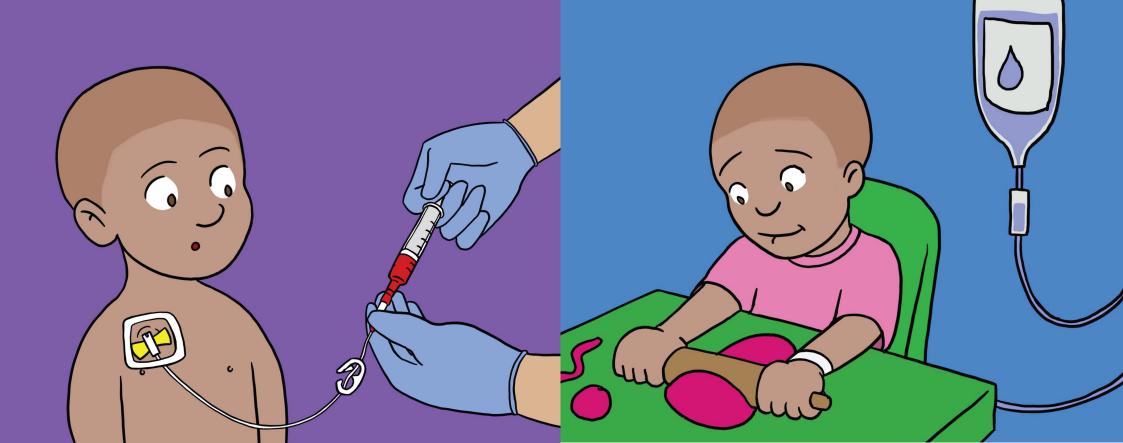

The needle looks like a butterfly. My Port can be used to check my blood.

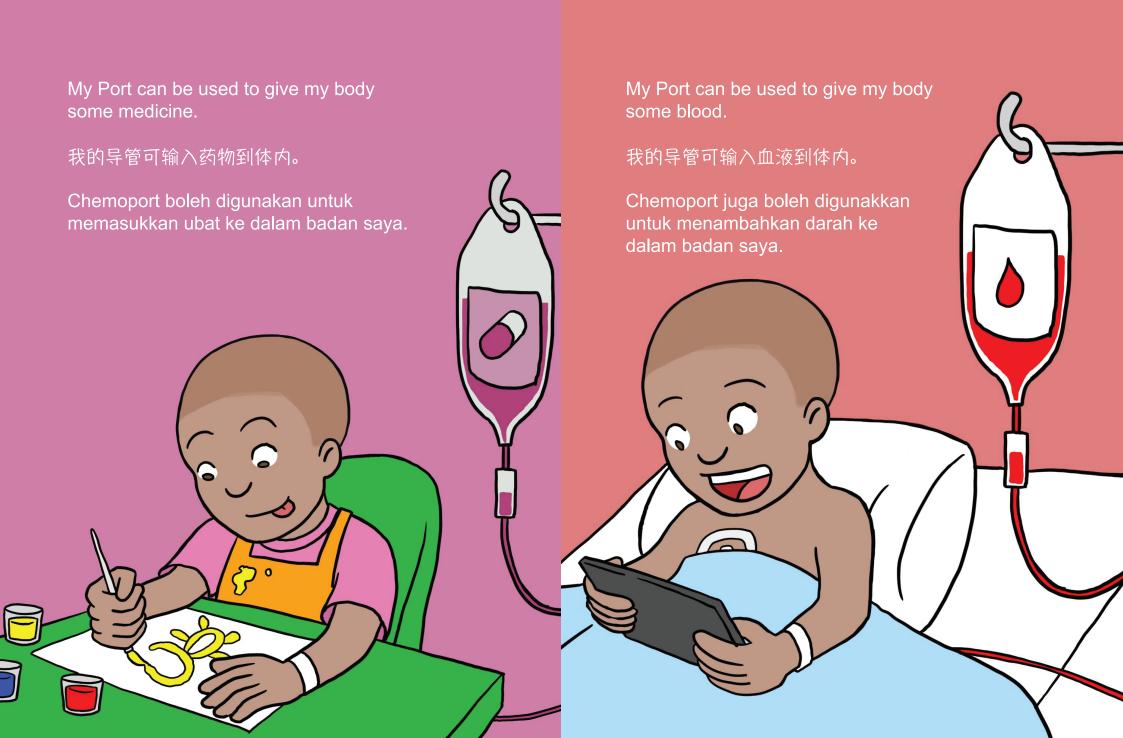

针管看似一只蝴蝶。 我的导管可以用来检查我的血液。

Jarumnya kelihatan seperti seekor rama-rama. Chemoport digunakan untuk menguji darah saya. My Port can be used to give my body a drink.

我的导管可用来提供水分给我的身体。

Chemoport boleh digunakan untuk memasukkan air ke dalam badan saya.

When my Port is not being used I can have a bath or go for a swim.

当我的导管没被使用的时候, 我可以冲凉或游泳。

Apabila Chemoport saya tidak digunakan, saya boleh mandi dan berenang.

I have a port, it is very special and very important.

我有一条导管。它很特别也非常 重要。

Saya mempunyai Chemoport. Ianya sangat istimewa dan sangat penting.
